

Paris Baguette

Malaysia

Paris Baguette is a French-inspired bakery café with South Korean roots. We opened our first US café in 2005 and we are growing rapidly with a projected 1,000 locations by 2030. At Paris Baguette, our vision is to re-establish the bakery café as the heart of the community. We serve expertly crafted baked and brewed goods to our guests made with the highest quality ingredients made by our skilled bakers, bakers, and baristas. Guests can taste the difference in our pastries, cakes, and breads that are made fresh on-site at each café while enjoying a warm and welcoming bakery café experience that delivers joy to everyone.
