

Parliament Road

Malaysia

Due to ongoing clogging problems at a low point on Parliament Road, the authorities asked ACO to provide a strong and easy-to-maintain drainage solution.

ACO proposed the use of ACO Monoblock with integrated access units featuring removable and lockable Drainlock grates. This solution ensures ease of maintenance and cleaning while maintaining its F900 load class rating, suitable for heavy-duty applications.

Resulted to improved long-term performance, reduced blockages, and a reliable drainage system for one of the nation's key roads.

Project Name	Parliament Road
State of Installation	Kuala Lumpur
Country of Installation	Malaysia
Commissioning Date	2017
ACO Sales Organization	ACO Australia
Segment and Subsegment	Surface Water Management - Public Roads
ACO Product	ACO Monoblock Access Units
